"Justset" Watertight Pedestrian Loading Doors Specifications

Material: 1/4" (6mm) aluminum cover and extruded aluminum frame.

Cover: Diamond-pattern tread plate reinforced for 300 psf (1464 kg/m²) live load.

Frame: Extruded aluminum channel frame with anchor flanges around the perimeter. A 1-1/2" (38mm) PVC drain coupling is attached to the channel frame for a pipe connection to a dry well or disposal system. Gasket in frame for water resistance. Frame is constructed so no protuberances extend below frame for ease of pouring.

Hinges: Heavy duty Type 304 stainless steel hinges.

Latch: Type 316 stainless steel slam lock with fixed interior handle and removable exterior turn/lift handle.

Latch release is protected by a flush, gasketed, removable screw plug.

Lift Assistance: Pneumatic assists as required. Automatic hold-open arm automatically locks cover in the open position.

Finish: Mill Finish aluminum with a coating applied to the exterior of the frame.

Hardware: Type 304 stainless steel throughout except where noted.
